OFFICE SEATING

Welcome to Narrative Seating

Every Chair Tells a Story.

At Narrative Seating, we believe that a chair is more than just a place to sit - it's where ideas are born, deals are made, and days are shaped. Designed with purpose and crafted for comfort, our office chairs are built to support the stories that unfold in modern workspaces - whether it's the quiet focus of solo work or the energy of team collaboration.

Each design is a thoughtful blend of ergonomics, aesthetics, and durability - because your workspace deserves furniture that not only performs but inspires. With every curve, stitch, and structure, our chairs embody the narratives of innovation, ambition, and progress.

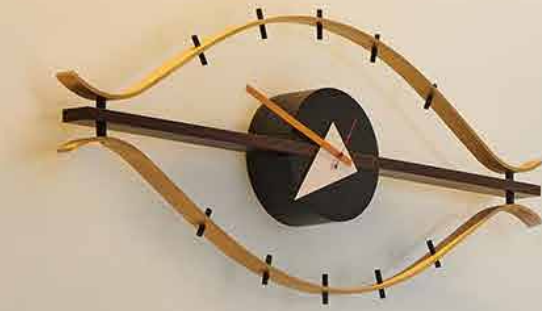

Take a seat. Start your story.

ILY

Our story begins with the ILY Chair - a thoughtfully crafted seat that strikes a balance between comfort, elegance, and everyday performance.

Designed for those who value both form and function, the ILY chair is crafted with meticulous attention to every detail. Its flexible nylon backrest, luxuriously upholstered in premium fabric, gently responds to your movements, enabling prolonged sitting without discomfort or fatigue.

ILY

Adaptive Design. Enduring Comfort.

The ILY Chair features 3D lumbar support and 4D adjustable armrests with soft PU pads for personalised comfort. Upholstered in elegant Gabriel Mozart fabric, the seat is layered with high-resilience moulded foam for lasting support.

A synchronised mechanism with four locking positions, seat depth adjustment, and an optional headrest offer dynamic control and a customised fit.

Designed with purpose, ILY brings ergonomic performance into a sleek, refined form.

Guarantee

- 10-year guarantee on parts.
- 5-year guarantee on fabric.

The ILY Chair combines precision detailing with responsive comfort. Its flexible nylon backrest, wrapped in premium fabric, adapts to your movement - supporting long hours of sitting without strain or fatigue.

Well B

Smart Support for Everyday Performance.

The Well-B chair is engineered to provide adaptable support in dynamic work environments. Its durable Wintex mesh back promotes airflow while maintaining firm, flexible support. 4D adjustable armrests and an adjustable lumbar support allow for personalised comfort throughout the day, while a supportive headrest offers added relief during extended periods of sitting.

At the core of Well-B is a weight-activated synchronised mechanism, featuring four locking positions and a seat slide, all seamlessly controlled via an intuitive wire mechanism. Whether you're leaning in or reclining back, Well-B moves with you, delivering ergonomic precision and all-day comfort.

Guarantee

- 10-year guarantee on parts.
- 5-year guarantee on fabric.

NV

The modern ergonomic design of the NV chair makes it a great option for any office or home environment. The ergonomic backrest design ensures maximum flexibility and comfort while working at a desk.

NV

Ergonomic Comfort, Designed for You.

The NV chair is thoughtfully engineered for comfort and support. Its uniquely curved backrest is designed to align with the natural shape of your spine, providing lasting support for your back and neck throughout the working day. Wrapped in high-quality 3D mesh, the backrest promotes airflow to keep you cool and comfortable at your desk.

The chair's versatile design also offers complete freedom of movement. It swivels a full 360 degrees, tilts smoothly from the upright position, and features adjustable seat height and armrests, allowing you to customise your seating to the perfect working position.

Guarantee

- 10-year guarantee on parts.
- 5-year guarantee on fabric.

The NV chair is crafted with comfort, style, and quality at its core. Available in sleek Black, Grey, or Off-White frame finishes, it also offers the option of a headrest for enhanced support.

Expanding on its versatility, the NV range features five additional seat fabric options from the premium Medley collection, giving you even more ways to personalise your perfect chair.

UX

UX delivers a premium seating experience, born from the fusion of innovative design and high-quality materials. It continues Narrative Seating's story of crafting furniture that shapes how we work, feel, and connect. The engineered backrest features a flexible plastic structure that moves with your body, offering responsive, continuous support. Paired with an upholstered seat and breathable mesh backrest, UX ensures lasting comfort throughout the day.

UX

Designed for Performance. Built for Comfort.

The UX chair blends advanced ergonomics with refined simplicity to support focused work throughout the day. Its flexible engineered plastic backrest, paired with breathable 3D air mesh, adapts to your body's movements while promoting airflow for lasting comfort.

The height-adjustable seat and precision-engineered tilt mechanism offer a range of natural motion - with a backward tilt of 0-11° and forward tilt of 0-5° - encouraging active sitting and improved posture.

Equipped with a KGS Class 4 gas lift, 60mm castors, and a durable 350mm nylon base, UX delivers smooth movement and reliable support.

Certified to ISO, BIFMA, and GreenGuard standards, it meets the highest benchmarks for safety, sustainability, and performance.

Guarantee

Black Microfibre Leather
PU-40

Features

- Pneumatic height adjustment
- Seat depth adjustment
- Tilt tension control
- Back stop
- BIFMA certified

Dimensions

Features

Pneumatic Height Adjustment

Pneumatic height adjustment is used to adjust the seat to fit different user heights. (1) Pull out the lever up and lift the body out of the chair to raise the seat. To lower the seat, remain seated and pull the lever up.

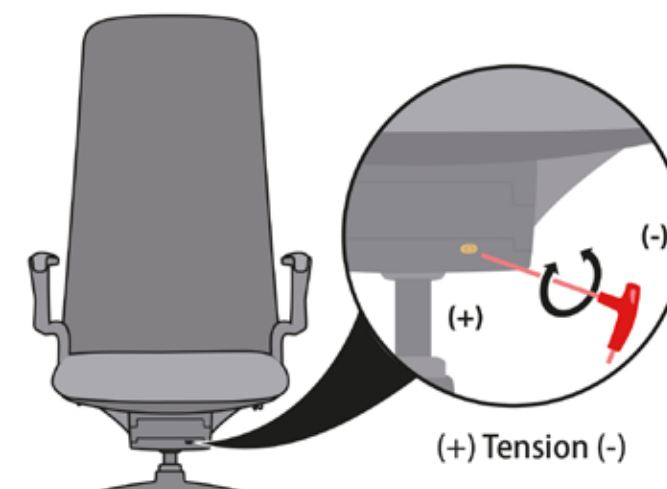

Seat Depth Adjustment

Seat depth adjustment moves the seat pan to accommodate different leg lengths. Pull out the lever, and slide the seat pan front to back.

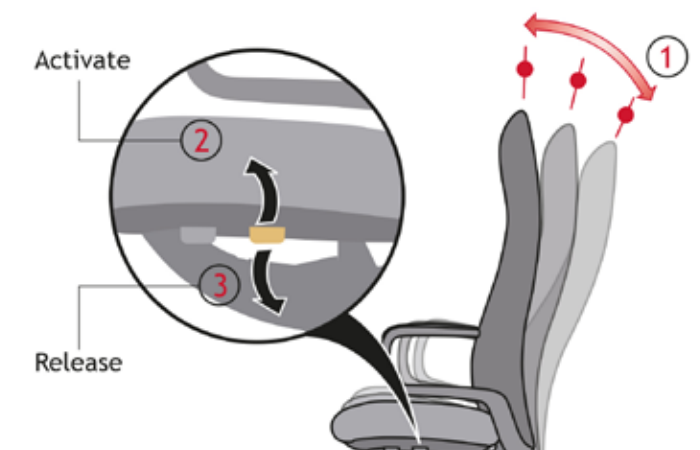

Tilt Tension Control

The weight-activated synchronised mechanism adjusts tilt tension based on the user's weight. To fine-tune it, use the Allen key: align it with the adjustment hole and turn clockwise to increase tension or anticlockwise to decrease it.

Back Stop

Back stop allows users the choice of selecting 3 positions locking. (1) Recline to the desired stopping position and (2) pull out the lever to activate the back stop. (3) Push in the lever and recline to release the back stop.
