We are Edit Office

About Us

Edit Office is a trade only supplier of quality office brands.

- Nationwide Distribution of Office Interiors products to trade in the UK
- Represents key brands
- Bespoke own brands
- Partnerships with key Office Interiors specialists throughout the UK
- Key relationships with manufacturers in UK, Europe and Asia

We work a little differently

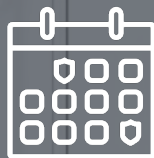

Our philosophy is simple. It is to offer high quality products at prices that customers can afford. We achieve this through our dedication to meticulous choice of materials allied to modern production methods. Thus, we can offer high quality products that are well designed at affordable prices. We work tirelessly with key partners throughout Europe to bring these high quality brands to the market. In the UK, we operate multiple warehouses and showrooms with over £4 million of stock to service our UK partners. For export markets, we offer a direct production to partner model with fast delivery lead times.

- We provide the Office Interiors industry in the UK with a unique offering from an extensive product portfolio. We work closely with key partners and offer support in terms of product portfolio, stock, design, pricing and logistics.
- We work closely with specific manufacturing partners whom we believe to bring a specific offering to our portfolio. We work with trusted/established brands as well as develop our own bespoke brand products. When we agree to work with any brand partners, we carefully consider not only what that brand represents but equally whether Edit Office is confident it can offer that brand fair representation within its portfolio to ensure significant market share and growth. If we believe the relationship does not work for both parties, then Edit Office will not commit to any manufacturer/brand.
