RECEPTION

Tresta

Tresta reception counters feature modular design with simple, angled, high, and low units, offering versatile configurations. Customise the look with a range of color and front finishes, from melamine to natural veneer, matte, gloss, or laminate. Functional add-ons like mobile document shelves, upholstered panels, media ports, and cable management ensure an organised, ergonomic workspace.

*TAILORED RECEPTION SOLUTIONS WITH
STYLE, VERSATILITY, AND FUNCTIONALITY*

Furonto

Furonto reception counters offer a wide selection of sizes, shapes and finishes, from melamine panels, to matte and glossy lacquered surfaces, natural wood veneers with special textures, to fronts covered with glass panels or sheets that imitate concrete. The desk fronts are available in two height options, in a straight, corner or curved version. The desk tops come in two depths, in shapes tailored to the furniture front line. This wide selection of basic system elements allows for flexible and adaptable reception space arrangements according to individual needs.

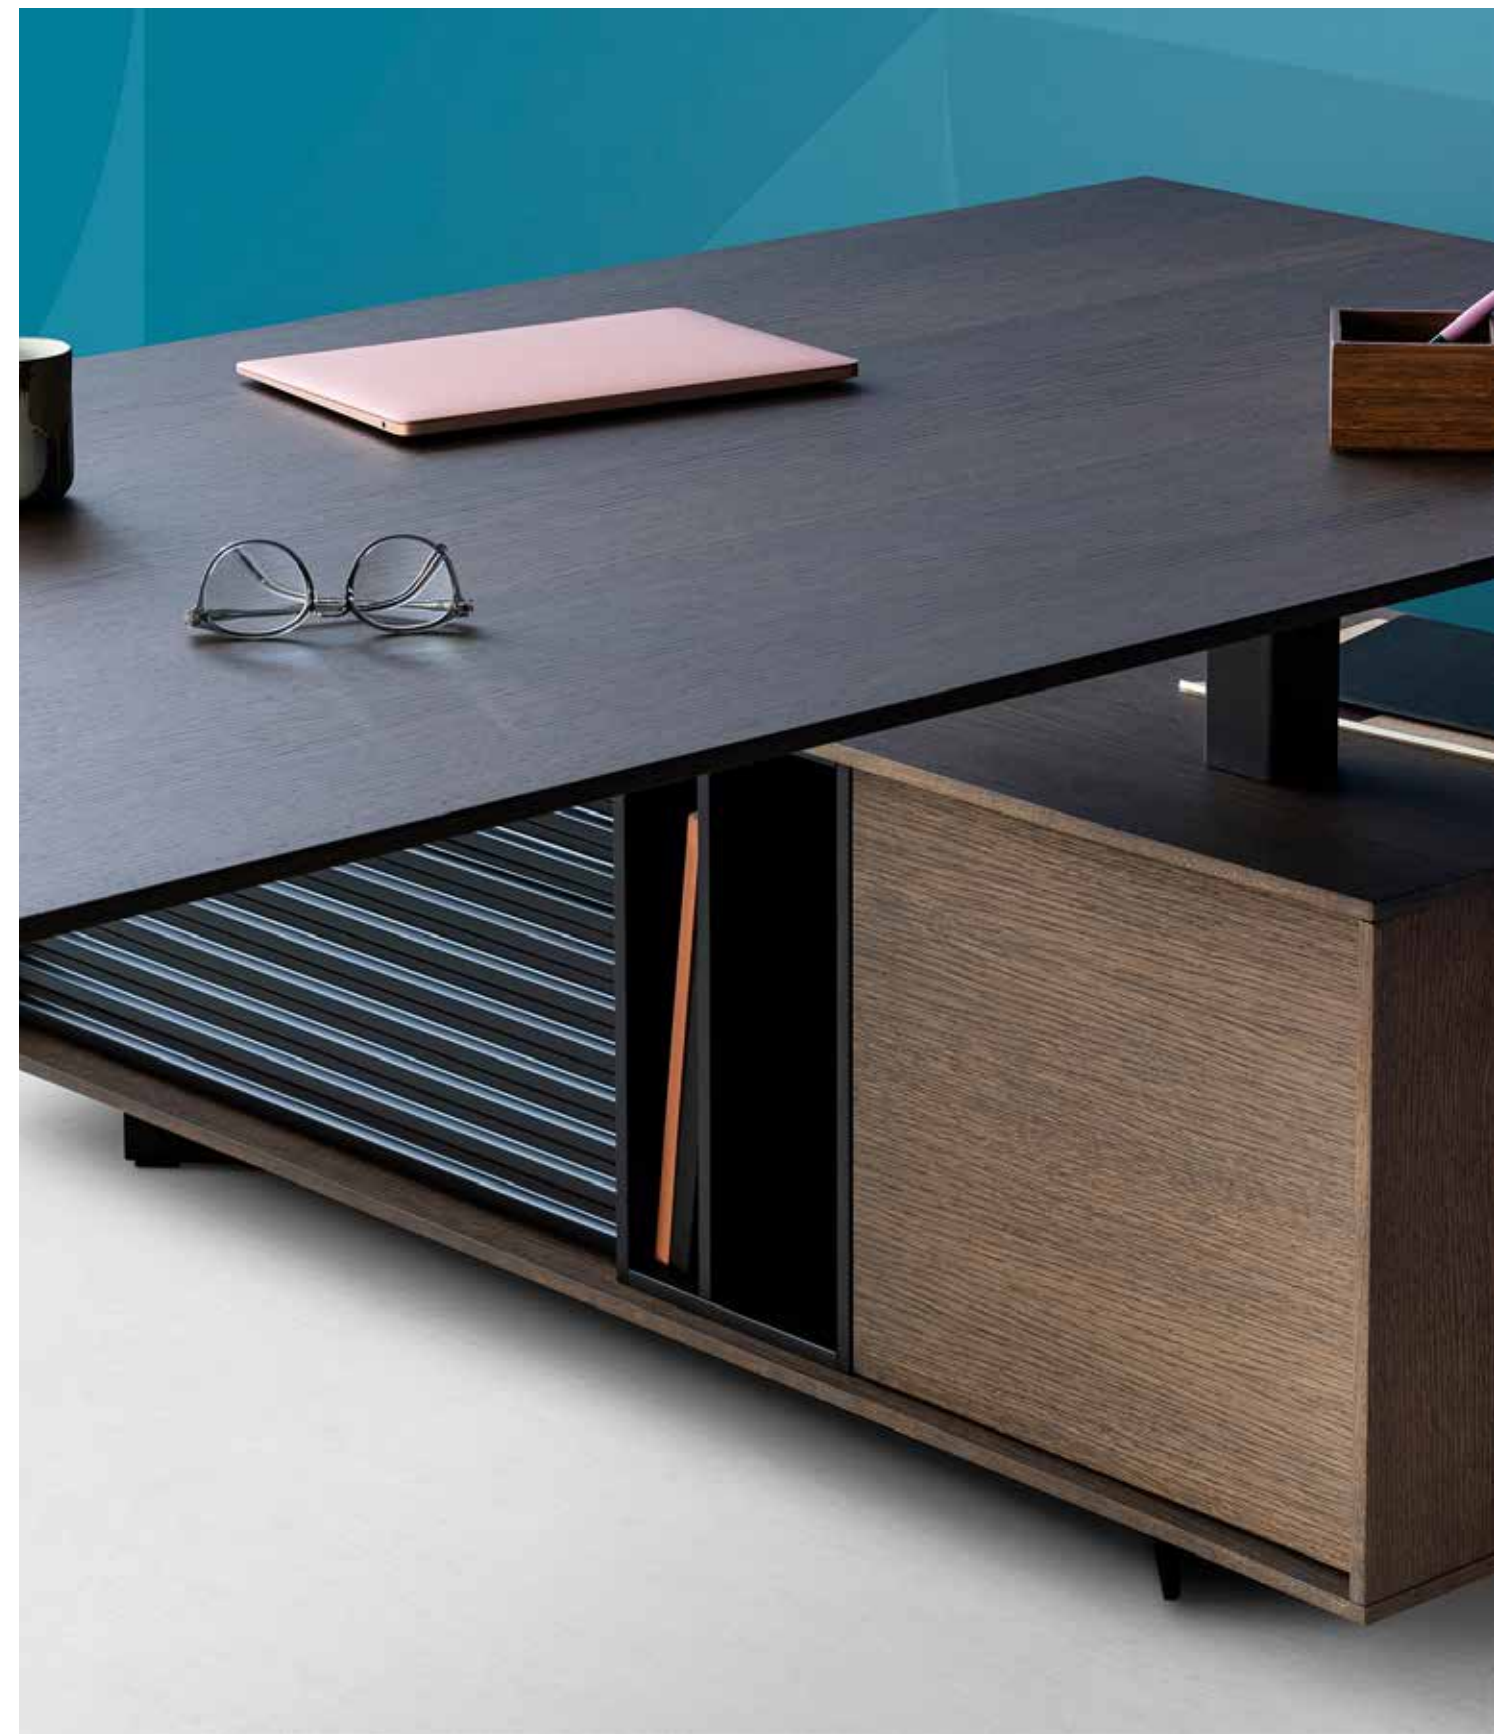

EXECUTIVE DESKING

Dignis

Dignis desks are freestanding or supported on a cabinet. In both variants, they are delicate in form and eye-catching. A wide choice of finishes and colors available for desktops gives them an individual character while meeting the most important requirements of durability and comfort of use. Choosing the right surface finish makes it easier to adapt to the user's work style, and the visual integrity will satisfy even the most demanding aesthetes. Dignis desks are dedicated to offices, but from experience, we know that they will also work in any unconventional office interior.

*DIGNIS DESKS – WHERE ELEGANT DESIGN MEETS
DURABLE FUNCTIONALITY FOR ANY OFFICE SPACE*

In

The In office desks feature modern, noble materials like quartz conglomerate, compact laminate, and natural veneer, paired with a unique frame design that shifts in appearance depending on the perspective. This combination creates an exceptionally attractive and visually lightweight construction, perfect for any contemporary workspace.

Xeon

Xeon desks combine functionality with elegance, making them both practical work tools and stunning decor pieces. Crafted from top-quality materials for durability and reliability, they are perfect for demanding users. The unique frame design and blend of glass, natural veneer, and steel lend the Xeon collection a refined, original character. The collection also includes desks supported by cabinets, adding extra functionality. Xeon desks are truly an investment in beautiful, long-lasting furniture.

Xeon Desks: Crafted for Work, Designed for Elegance

Ostin

Ostin desks have a classic, timeless design that adds a sense of importance to any room and to the person seated there. Sturdy, stable, and elegant, they come in two heights and feature a panel structure. Available as freestanding or cabinet supported models, they are built to meet the highest expectations. Freestanding desks also offer an optional front cover for a more enclosed look.

Stepps

Stepps desks are part of the Stepps modular furniture system, designed for full compatibility. These desks can be integrated into shelves on both sides, supported by a shelf, or built-in. Additional features include options to add a USB charger, LED lighting, or a strip with knobs for extra functionality.

Stepps Desks: Modular Design, Maximum Flexibility.

Grand

The GRAND range indeed embodies the essence of traditional executive offices, combining prestige with functionality. Its design elements work harmoniously to create an atmosphere of sophistication and professionalism. The GRAND range balances classic executive style with modern design sensibilities, making it a perfect choice for those who appreciate both form and function in their office environment.

Oskar

The OSKAR executive furniture collection is an exceptional choice for individuals who seek a distinctive and striking aesthetic in their workspace. This range is crafted for those who appreciate the blend of visual appeal and practical functionality, ensuring that each piece not only enhances the beauty of the office but also provides a sense of prestige and comfort.

OSKAR. Elevate Your Workspace with Timeless Style and uncompromising Comfort.

Soreno

The SORENO collection is a remarkable variation on the classic form of office furniture. A thick, solid desk top gives the impression of being supported on one side only. In fact, it rests on the sheet of strong, tempered glass that runs through almost all its length. The solution intrigues and at the same time gives the furniture a light touch. The collection is complemented by simple cabinets and tables, giving great space arrangement possibilities. The desk top, alike table tops and cabinet fronts, are finished with a natural veneer. In addition, for comfort of use, worktops and podiums of the drawer units are finished with durable forbo mat.

SIT-STANDING

Leap

The Leap range is an electrically adjustable desking system designed for flexibility in any workspace, offering configurations such as stand-alone single, bench, K top, radial, and L-shaped desks. The frames can expand to support desktops from 1200mm to 1800mm wide, with heights adjustable from 655mm to 1255mm via touch-sensitive controls. Each desk includes a memory control for individual height adjustments and features anti-trap technology that stops and retracts if obstructed.

TABLES

HushSpot

HushSpot is a modern multi-station hotdesking table, a comprehensively equipped workspace for anyone who does not have a permanently assigned workstation. It is a solution for companies where hybrid work has become a part of everyday life. HushSpot has all the necessary modules for effective work, such as: power sockets, organisers for office accessories, a place for plants, a compartment for storing office accessories, as well as additional LED lighting.

*ELEVATE TEAMWORK TO A HIGHER LEVEL
WITH THE HUSHSPOT COWORKING TABLE*

Demino

Demino table system is a family of high and low tables with a very distinctive design and versatile purpose. They are characterized by a distinct, industrial form that cannot go unnoticed. Two heights, large tabletops, legs connected by a railing, a very stable structure, and many color combination possibilities make the Demino system a universal and convenient proposal for various spaces. They will be perfectly suitable for common areas, offices, but also in cafeterias or kitchens.

H2

The H2 tables break traditional office design norms with their unique shape, drawing attention to the refined, graphic form of their bases. Their minimalist style offers versatility, enhancing spaces with various aesthetic themes, from modern to classic. This adaptability allows the H2 tables to pair effortlessly with nearly any seating type, making them suitable for diverse environments.

Despite their delicate appearance, the H2 tables maintain structural integrity and stability, even with large tabletop sizes. This blend of elegance, strength, and universal appeal makes the H2 tables a stylish yet robust addition to any office setting.

MINIMAL AND MODERN RANGE OF TABLES

Mixt

The Mixt table is a reflection of the design concept behind the Mixt collection. It has a simple construction and minimalist design that cannot be overlooked. Mixt tables are available in three leg variations: sled base, metal frame protruding beyond the table top, and legs finished with chrome feet. Mixt table tops can be made from various materials including natural veneer, nano-laminate, and melamine board. In every version, Mixt tables exude an understated elegance that perfectly complements offices and other interiors that require a touch of prestige.

Ostin

Ostin tables are a perfect fit for offices and small conference rooms where emphasis on prestige is desired. They are available in two height variants, and their table tops can be square or rectangular in shape. Ostin office tables are primarily solid and elegant, and when combined with original details and finishing, they emphasize the importance of the room. Above all, thanks to their monumental form, Ostin tables create suitable conditions for negotiations, difficult conversations, and contract signing.

*OSTIN TABLES: ELEVATING PRESTIGE AND
POWER IN EVERY MEETING.*

Gravos

Gravos conference tables showcase the prestige and functionality of the space they are in. The massive and large tabletops provide a comfortable place to converse and offer plenty of space for coworking. Gravos tables come in several dimensions - the largest being over 4 meters long, and the smallest just over 2 meters. They are designed for conference rooms and larger meeting spaces.

Xenon

Ostin tables are a perfect fit for offices and small conference rooms where emphasis on prestige is desired. They are available in two height variants, and their table tops can be square or rectangular in shape. Ostin office tables are primarily solid and elegant, and when combined with original details and finishing, they emphasize the importance of the room. Above all, thanks to their monumental form, Ostin tables create suitable conditions for negotiations, difficult conversations, and contract signing.

*OSTIN TABLES: ELEVATING PRESTIGE AND
POWER IN EVERY MEETING.*

Minimus

Minimus conference tables are thoughtfully designed to deliver comfort, even during extended discussions. Their expansive tabletops, supported by sturdy metal or wooden legs, facilitate the free flow of ideas, accommodating large groups with ease and ensuring productive collaboration.

Picnix

The Picnix picnic table is a comfortable place for spontaneous meetings in the office. Picnix is undoubtedly a mobile and stable table. It can be supported on wheels or on legs, and comfortable upholstered seats along with a properly sized table encourage spending time in a pleasant atmosphere.

Several people can sit at the Picnix table at the same time. It will be particularly useful in rooms such as a lobby, cafeteria, or open space.

PICNIX: THE PERFECT PICNIC TABLE FOR SPONTANEOUS MEETINGS AND RELAXED COLLABORATION.

ACOUSTIC PODS

Hush

Hushoffice pods are state of the art acoustic workspaces designed to enhance focus, privacy, and collaboration within modern office environments. These pods come in various models, including phone booths for private calls, work pods for individual tasks, and meeting pods for small group discussions or brainstorming sessions. They feature high-quality sound insulation that minimizes distractions and ensures confidential conversations remain private.

HushFree

HushFree.Access is a range of office acoustic booths designed for people with mobility disabilities. Featuring a low threshold, a wider door, and an easy-to-use handle, the pods offer effortless entry without wrist strain. The doors can be left or right-handed to suit different office needs.

These booths create a peaceful environment for meetings, private conversations, or creative work, whether in-person or online. Ideal as a private workspace or an alternative to conference rooms, the booths are fully customisable, allowing you to arrange the interior to your preference.

*HUSHFREE – FEEL THE FREEDOM OF DESIGNING
FLEXIBLE OFFICE SPACES*

Hide

Hide acoustic booths provide excellent sound insulation in a noisy office and allow for a quiet space for a phone call, video call, in person meeting or just a enclosed area to work away from a busy loud office.

Bbox

Bbox acoustic booths offer the perfect blend of functionality and aesthetics, providing an ideal space to focus and work in any office setting. These booths ensure privacy and superior acoustics, making them essential for quick calls, face-to-face meetings, collaborative tasks, and online sessions. Their spacious and comfortable design, recognized by the iF Design Award, can be customised with various materials and colours to fit your office space.

Bbox acoustic booths are perfect for open office spaces, co-working offices, and lobbies, improving overall office acoustics and reducing noise distractions. They enhance communication by providing a private, soundproof environment for uninterrupted work..

Privacy, Style, and Focus in Every Space.

KOALASTIC

Freestanding screens

Koala freestanding acoustic screens are the perfect way to easily divide up space and reduce noise. All our freestanding acoustic office screens can be easily moved around to suit your workplaces day to day needs.

These versatile screens not only help in creating a more organised and efficient workspace but also contribute to a quieter and more focused environment. Designed with both functionality and style in mind, our freestanding acoustic screens come in various sizes, colors, and designs to complement any office decor.

Whether you need to create private workstations, divide open-concept areas, or simply reduce distractions, our acoustic screens offer a practical solution without compromising on aesthetics.

Curved Screens

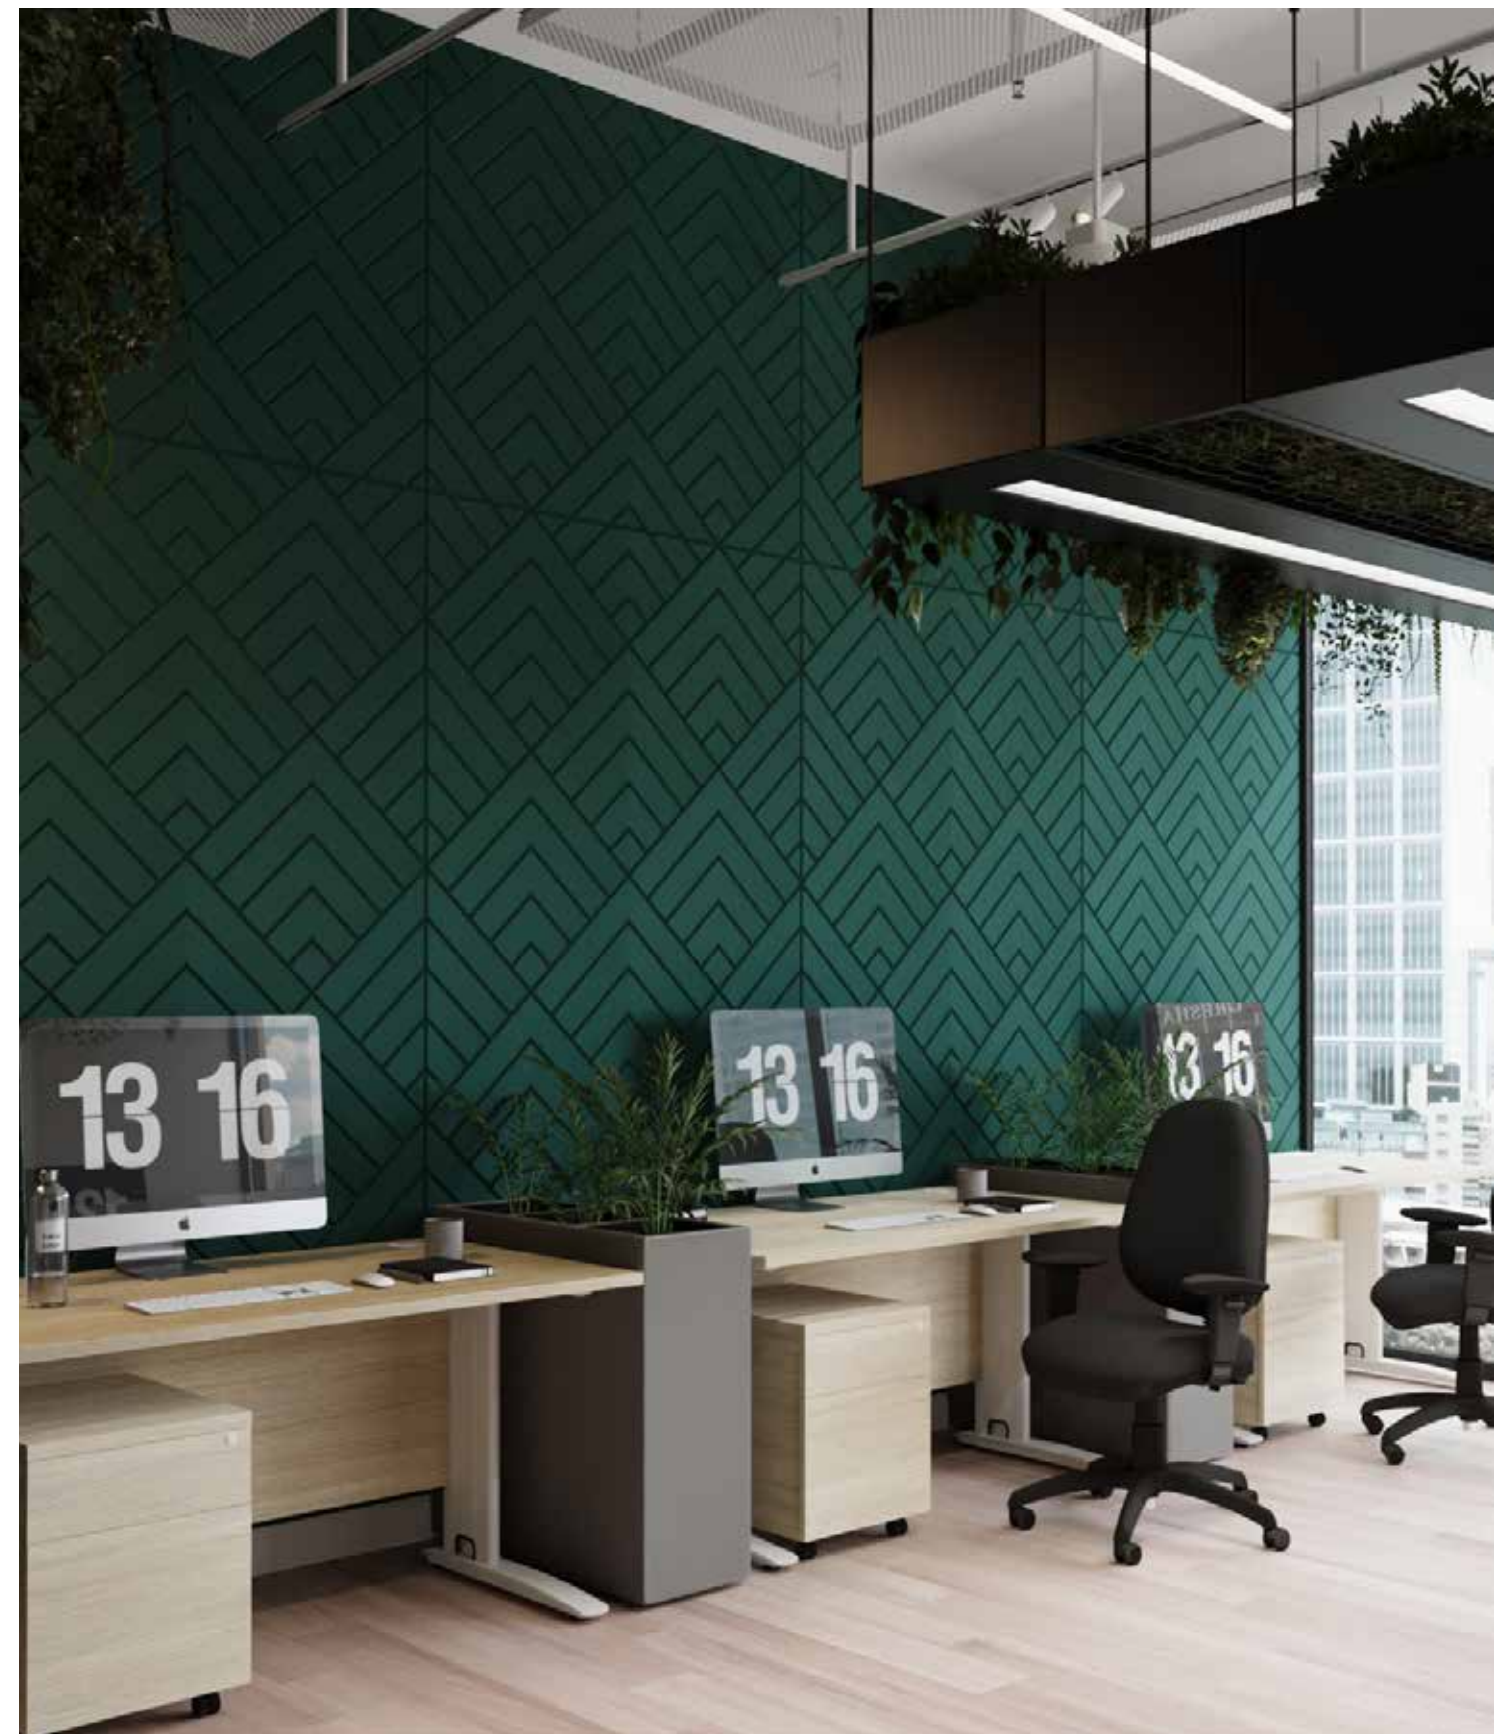

Acoustic Curved Freestanding Screen, the perfect blend of functionality and aesthetics to enhance your space while providing superior sound management. Crafted with precision and designed to elevate any environment, this innovative screen offers a seamless solution to privacy, acoustic control, and visual appeal.

Wall Panels

Koala Wall panels are acoustic, wall-mounted panels made from sustainable PET felt, offering both aesthetic and sound-absorbing benefits. Their creative designs enhance visual appeal while effectively reducing noise and echo in spaces. Suitable for offices, homes, or public areas, these eco-friendly panels combine style and functionality to promote a more peaceful and harmonious environment.

*KOALA WALL PANELS: ADD COLOR, DESIGN,
AND SUPERIOR SOUND ABSORPTION.*

Workspace Dividers

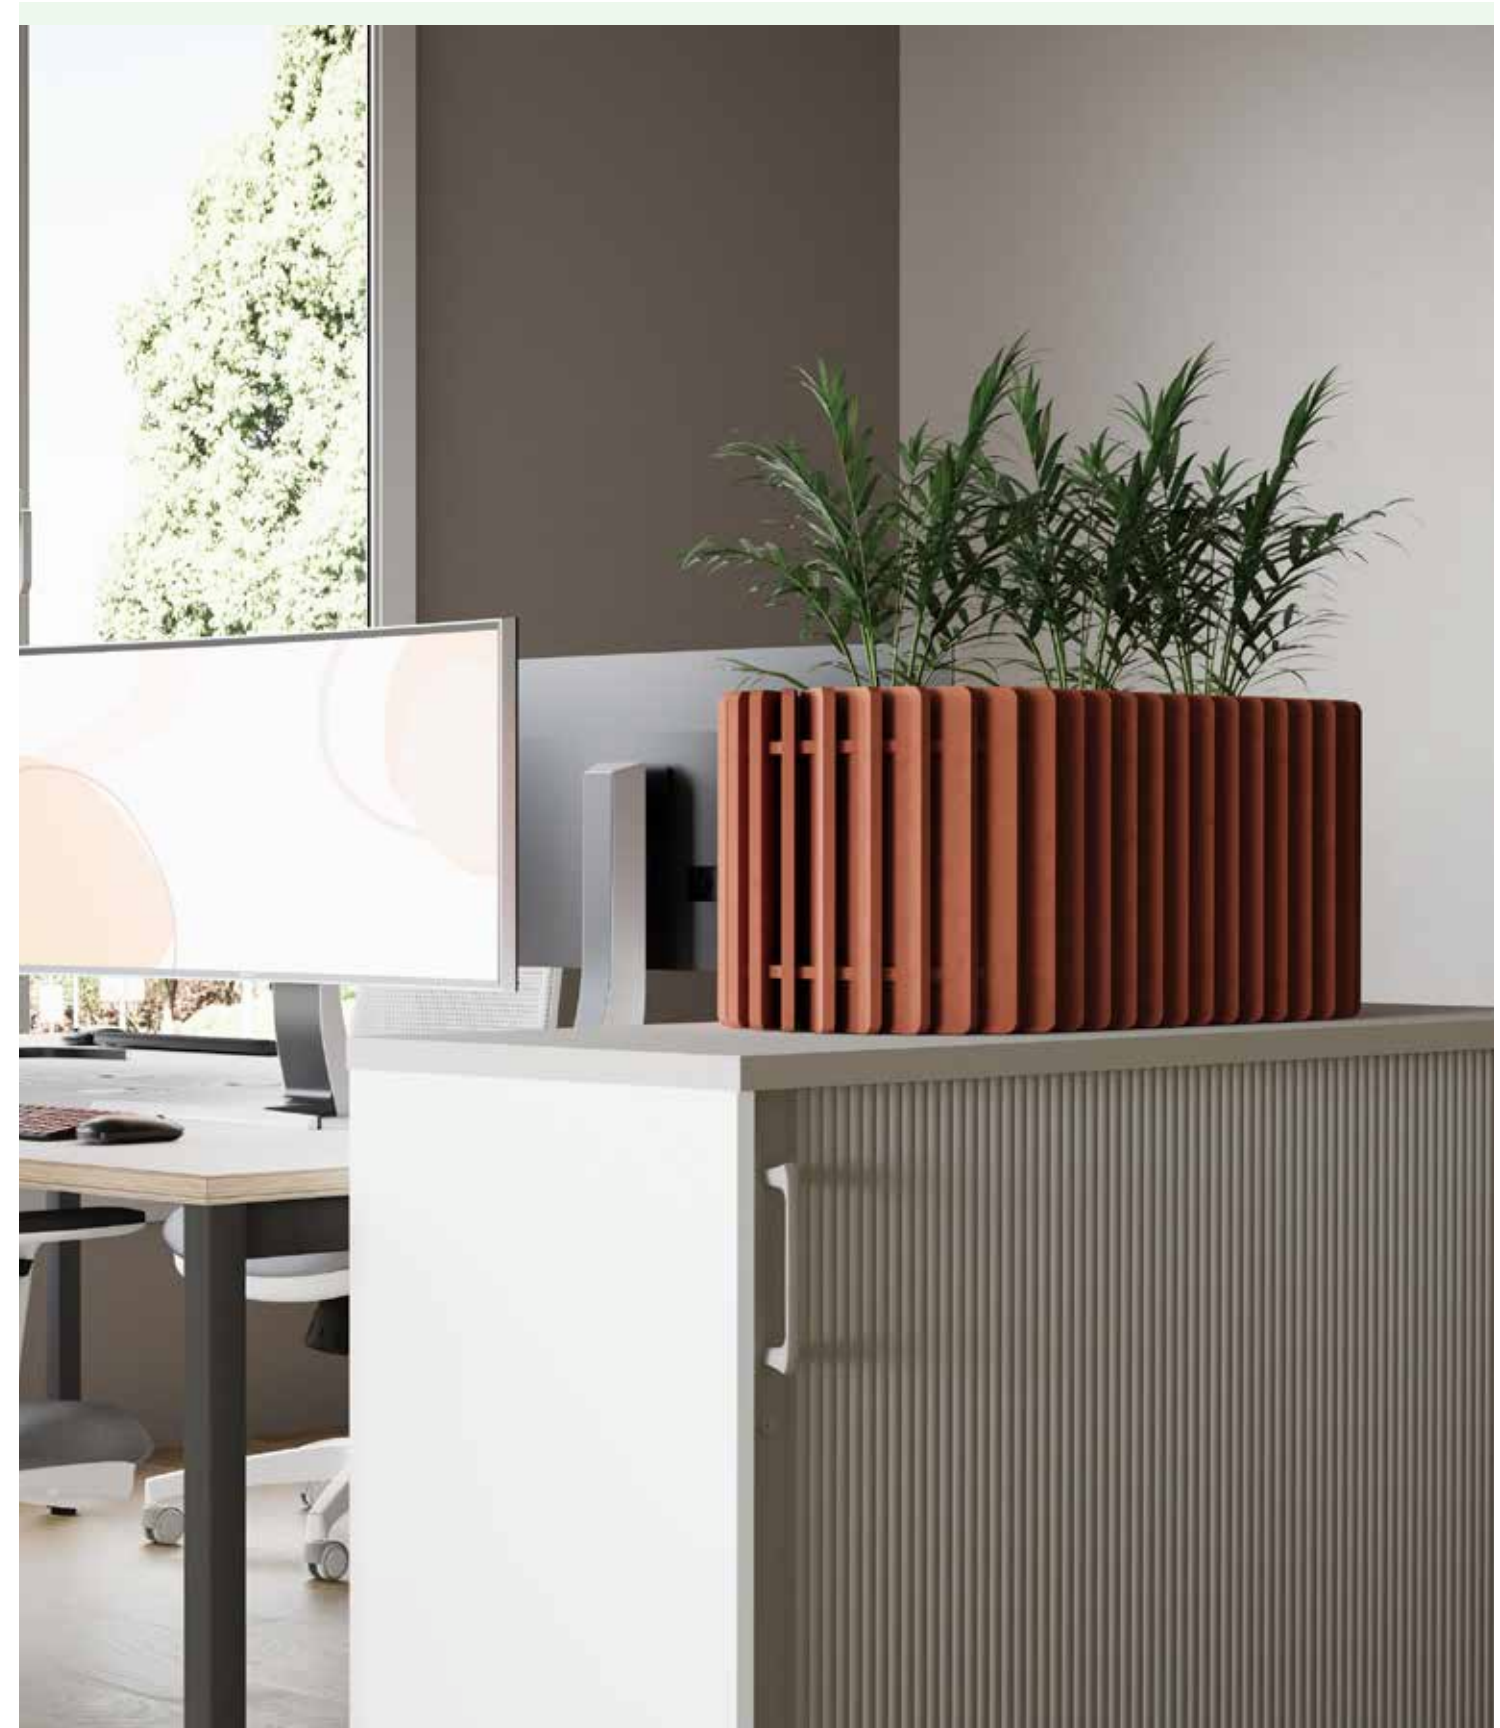

Koala Workspace dividers are made from premium acoustic panels and recycled PET material (recycled bottles) and come in an extensive range of designs and colours. These dividers act as a physical division between spaces within offices or other rooms, whilst also introducing some added acoustic absorption to reduce overall noise. Dividers are suspended from the ceiling.

The suspended design means that the dividers do not take up any floor space, leaving more room for furniture and equipment. With so many designs to choose from, there is sure to be an option that complements the existing decor of any office or workspace. Upgrade your office today with Koala Workspace dividers.

Planters

Crafted from recycled PET, these planters are ideal for any space, seamlessly blending greenery with improved acoustics. Both sustainable and stylish, they offer a perfect combination of visual appeal and functionality for your environment. Ideal for large and small areas, they serve as space dividers in open-plan offices or add visual appeal to reception areas. Beyond enhancing aesthetics, our planters improve acoustics and bring a touch of nature indoors, creating a more harmonious and inviting environment.

*KOALA PLANTERS: BRINGING GREENERY
AND ACOUSTIC HARMONY TO ANY SPACE.*

STORAGE

Dignis

Dignis cabinets are supported by delicate legs, and the grooved drawer fronts resemble waves. Their most important features are precision craftsmanship, attention to detail, and elegant aesthetics. They are backed by the knowledge, experience, and technology of Balma. The wardrobe bodies can be made of natural veneer or covered in lacquer. The wavy drawer fronts and boxes create a cohesive composition that begs to be filled with items. The wardrobe fronts can be made of natural veneer or painted.

SLEEK CABINETS WITH GROOVED DETAIL AND CONTEMPORARY LEGS

In

The In collection cabinets are mounted on aluminum bases and supported by high legs, giving them a modern and lightweight appearance. The cabinets can be made of natural veneer or lacquered MDF panels in a full range of colors according to our palette. The possibilities of various finish combinations increase the color matching to the interior character and individual preferences. In addition, the option to choose the color of noble anodized aluminum in black or natural allows for many intriguing combinations.

Xeon

The Xeon bookcase is a standout piece of furniture that captures attention with its bold, original design and distinctive form. It pushes the boundaries of conventional shelving, embracing a creative and uncompromising approach to structure. Crafted from veneered MDF board, the body and shelves are elegant and durable, while the back panel offers a refined finish in either lacquer or natural veneer. Supported by adjustable chrome feet, the Xeon bookcase provides both stability and flexibility, adapting seamlessly to uneven surfaces. This unique furniture piece not only adds character but also transforms interiors, giving spaces a fresh, inspiring, and modern dimension.

A BOLD, DESIGN-FORWARD STATEMENT PIECE THAT TRANSFORMS INTERIORS WITH ITS UNIQUE AND EYE-CATCHING FORM.

Ostin

Ostin cabinets feature a minimalist design highlighted by sleek, handle-free doors and drawers, accented with subtle aluminum slots for a refined, linear look. The upper panels are uniquely finished with eco-leather, adding a stylish and tactile element. These cabinets offer ample storage to keep your workspace organized, combining functionality with understated elegance.

Stepps

Modular Stepps shelving units bring both visual organization and refined functionality to any space. Designed for those who appreciate a blend of aesthetic order and sturdy construction, these units are versatile and timeless. They adapt effortlessly to other furniture and settings, making them suitable for offices, homes, or public spaces.

*STEPS SHELIVING UNITS OFFER VERSATILE AND
STYLISH STORAGE*

Gato

The GATO modular system allows you to create a comfortable and functional office space. It consists of elements made of melamine board and metal, which create practical wall and double-sided shelves. Gato shelves are perfect as partition walls, they are also an excellent place for storage and provide an effective background for plants.

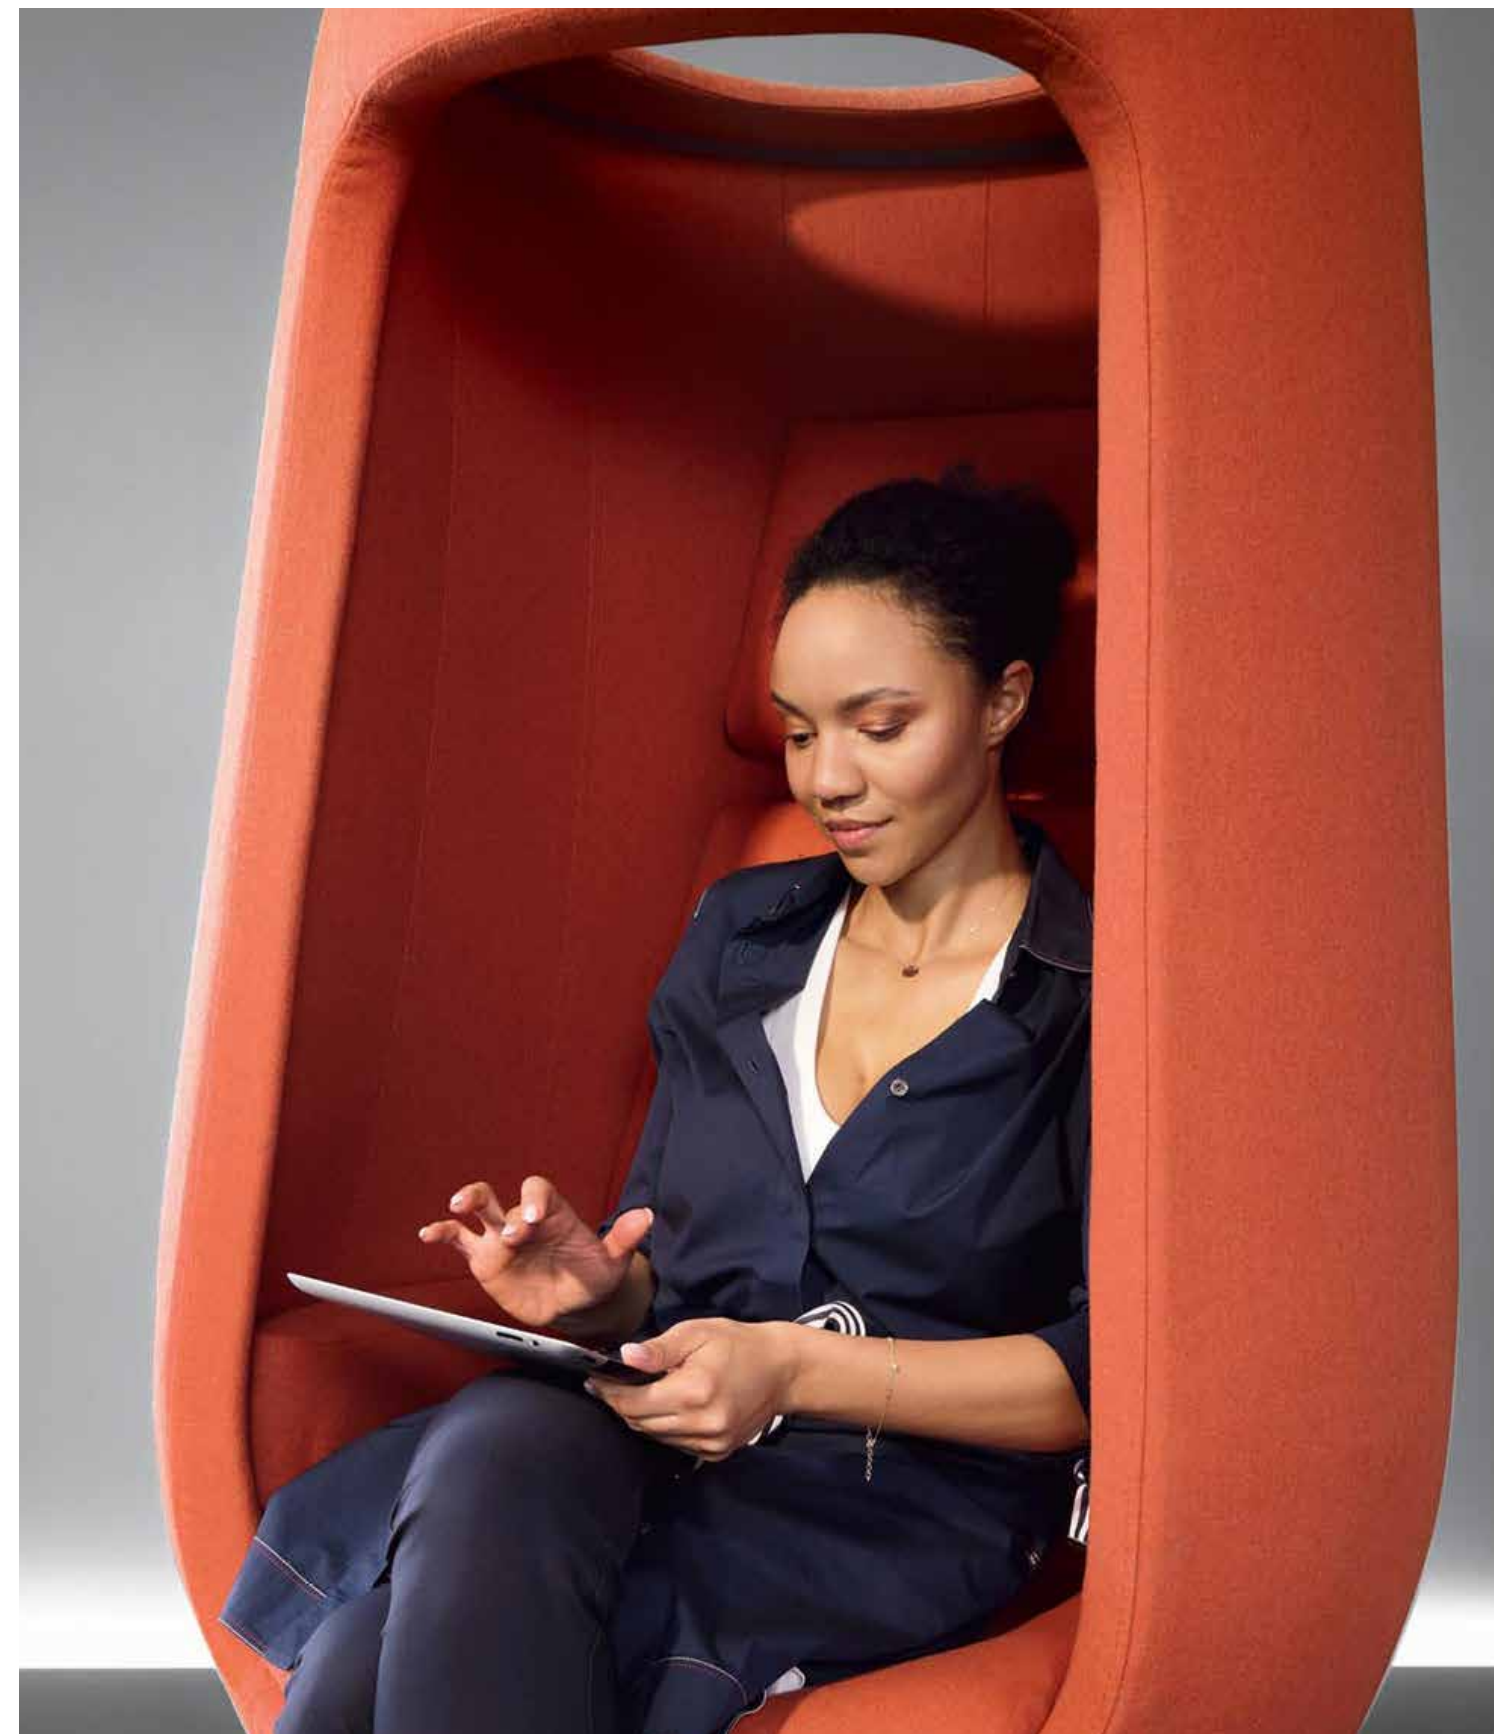

SOFT SEATING

A11

The A11 lounge chair by Hushoffice offers a personal, private space for relaxation and focus. Its modern, cylindrical design creates an intimate environment, perfect for individual work, calls, or informal conversations. Available in open or closeable versions, the A11 features a sliding panel that reduces light and noise, making it ideal for quick power naps or relaxed moments. Inspired by the Apollo 11 mission, its futuristic design includes a comfortable seat, headrest, and built-in USB port. A unique and stylish solution for modern workspaces.

*EXPERIENCE YOUR PERSONAL RETREAT WITH
A11—WHERE COMFORT MEETS PRIVACY IN A
FUTURISTIC DESIGN.*

Age

The Age collection is modeled on the 1970s century. The large seat and backrest make the collection very comfortable, and the metal frames they give a classic but fashionable design. Ideally used for the lobby, reception, waiting room, but also hotel rooms. Perfect for any office interior.

Banffy

Banffy is a playful, toy-inspired stool with colorful, stacked discs. It features a tilting base that moves with the user, enhancing focus and alertness with up to 12 degrees of inclination. Adjustable in height, it fits both traditional seating and standing desks, making it ideal for modern, flexible workspaces at home or in the office..

BANFFY: THE PLAYFUL, DYNAMIC STOOL DESIGNED TO KEEP YOU ACTIVE, FOCUSED, AND COMFORTABLE IN ANY WORKSPACE.

Bouli

Bouli is a collection of uniquely shaped, comfortable sofas featuring soft, oval forms. The varied seating invites total relaxation, while a range of customisable base options—wooden legs, metal skids, or concealed feet—allows for different styles, including a floating effect. Bouli is also available suspended on ropes, giving the appearance of levitation. Offered in two- and three-seater models, this versatile and comfortable design is ideal for any space.

Clapp

Clapp is a stylish furniture collection featuring a sofa, armchair, and tables inspired by the iconic design of the 1960s. It seamlessly blends vintage charm with modern lines, creating a memorable geometric silhouette. The collection's character can be customized through different upholstery and wood finishes, making it adaptable for various public, commercial, and residential interiors.

CLAPP: TIMELESS 1960S-INSPIRED FURNITURE, BLENDING VINTAGE ELEGANCE WITH MODERN LINES FOR VERSATILE STYLE IN ANY SPACE.

Daaz

Daaz is a versatile collection featuring soft, inviting lines and a design that offers comfort, almost like being hugged. With various modules, you can create anything from compact arrangements to spacious seating bays, making any area feel cozy and welcoming. Daaz works beautifully in both homes and public spaces, blending warmth with elegant, sculpted shapes that add visual interest and fill the space seamlessly.

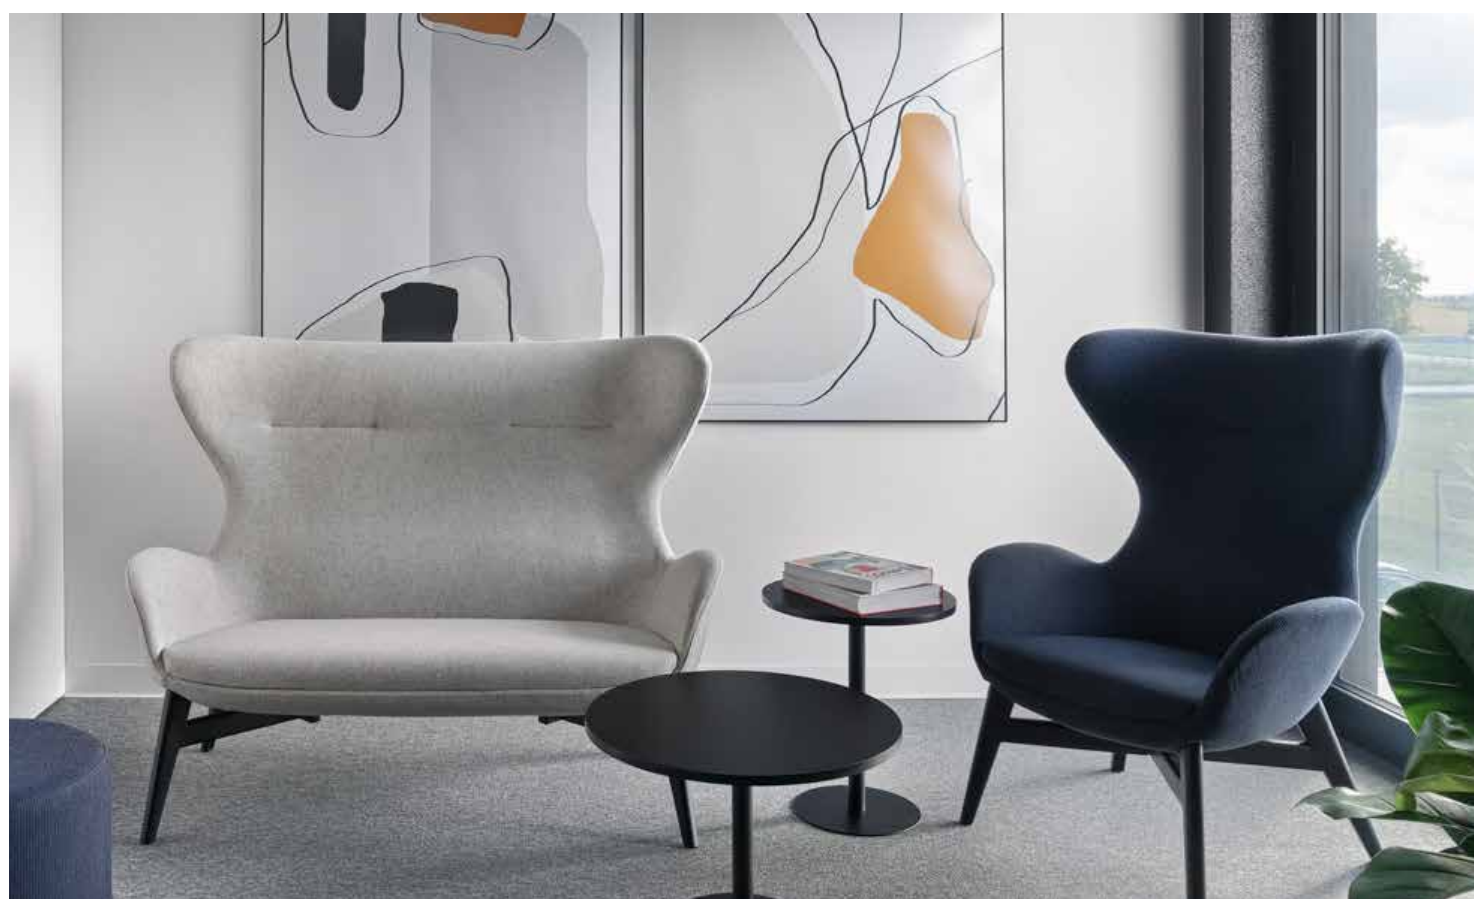

Gap

The Gap seating collection is a stylish and ergonomic range perfect for a variety of settings including public buildings, offices, hotels, and residential spaces. Inspired by 1960s design, it combines a classic silhouette with soft armrests and a uniquely balanced seat. Despite its compact size, the Gap collection offers exceptional comfort and fits seamlessly into diverse interiors.

*GAP. TIMELESS DESIGN MEETS ERGONOMIC COMFORT,
PERFECT FOR ANY SPACE.*

Kate Moodlii

Timeless design for any interior—this versatile range includes chairs, armchairs, and sofas. Ideal for relaxation zones, receptions, and waiting rooms, the collection features various frame options in wood or metal, available in multiple colors and styles.

Loop

The Loop collection is designed to transform public spaces, making them feel more inviting and comfortable. Ideal for informal meetings in offices or creating a welcoming atmosphere in waiting areas, the armchair stands out on its own or when paired with other pieces from the collection. Its modern, sleek design adds an exceptional character to any room, enhancing both the look and functionality of the space. Whether used individually or as part of a larger arrangement, Loop furniture brings warmth and style to diverse environments.

*MODERN FURNITURE THAT TRANSFORMS SPACES
WITH STYLE AND COMFORT.*

Lua

The Lua collection offers simple, elegant upholstered furniture, including armchairs and sofas in two and three seater options. The soft, pillow-like forms are complemented by unique accessories, such as a lamp with a lampshade and a wooden-top table, which seamlessly integrate with the furniture's design. Lua features two base options—metal and wood—allowing for a warm, homey feel with the wooden legs. Perfect for any space as it combines comfort, style, and practicality.

Mishell Soft

Mishell Soft is a more comfortable version of the Mishell collection, featuring a soft, quilted layer on the seats for added coziness. The upholstery highlights fabric texture and stitching, creating a visually appealing design. Customisable with a variety of fabrics and bases, it's perfect for both home and public spaces.

*MISHELL SOFT: ULTIMATE COMFORT AND STYLE,
CRAFTED FOR YOUR SPACE.*

Muse

Muse is a collection of comfortable modular sofas with a homely feel, including armchairs, an ottoman, a recliner and round pouffes, as well as a bench and coffee tables. A distinctive feature of the collection is the soft geometrically shaped cushion in sofa and armchair backrests and armrests, sewn together with the body of the furniture.

Nome

The Nome armchair is a small, eye-catching piece with elegantly tailored lines and gentle edges. Its loose backrest cushion, featuring a distinctive horizontal division, enhances both comfort and ergonomics while adding visual appeal. Ideal for both residential and public spaces, particularly hotels, Nome offers a perfect blend of style and functionality.

NOME: WHERE ELEGANCE MEETS COMFORT IN EVERY CURVE

Omu

The Omu sofa collection combines sculptural elegance with functionality, inspired by traditional Japanese Geta footwear. Its sleek design rests on upholstered legs, creating a sense of lightness. Soft, round forms and horizontal lines offer harmony and comfort, while customisable cushions provide adaptable seating for formal or relaxed spaces. Perfect for both socialising and relaxing, the Omu sofa is thoughtfully crafted for any environment.

Palo

The Palo armchair stands out with its expressive form, featuring soft, human-inspired curves, rounded shapes, and relaxing contours. It's available in a soft version with looser upholstery for added comfort. The chair also offers an optional 12° adjustable backrest for full relaxation. With a wide range of base and finish options, the Palo armchair complements various interior styles while making a dynamic statement in any space.

THE PALO ARMCHAIR COMBINES ERGONOMIC COMFORT WITH AN EXPRESSIVE DESIGN

Paxt

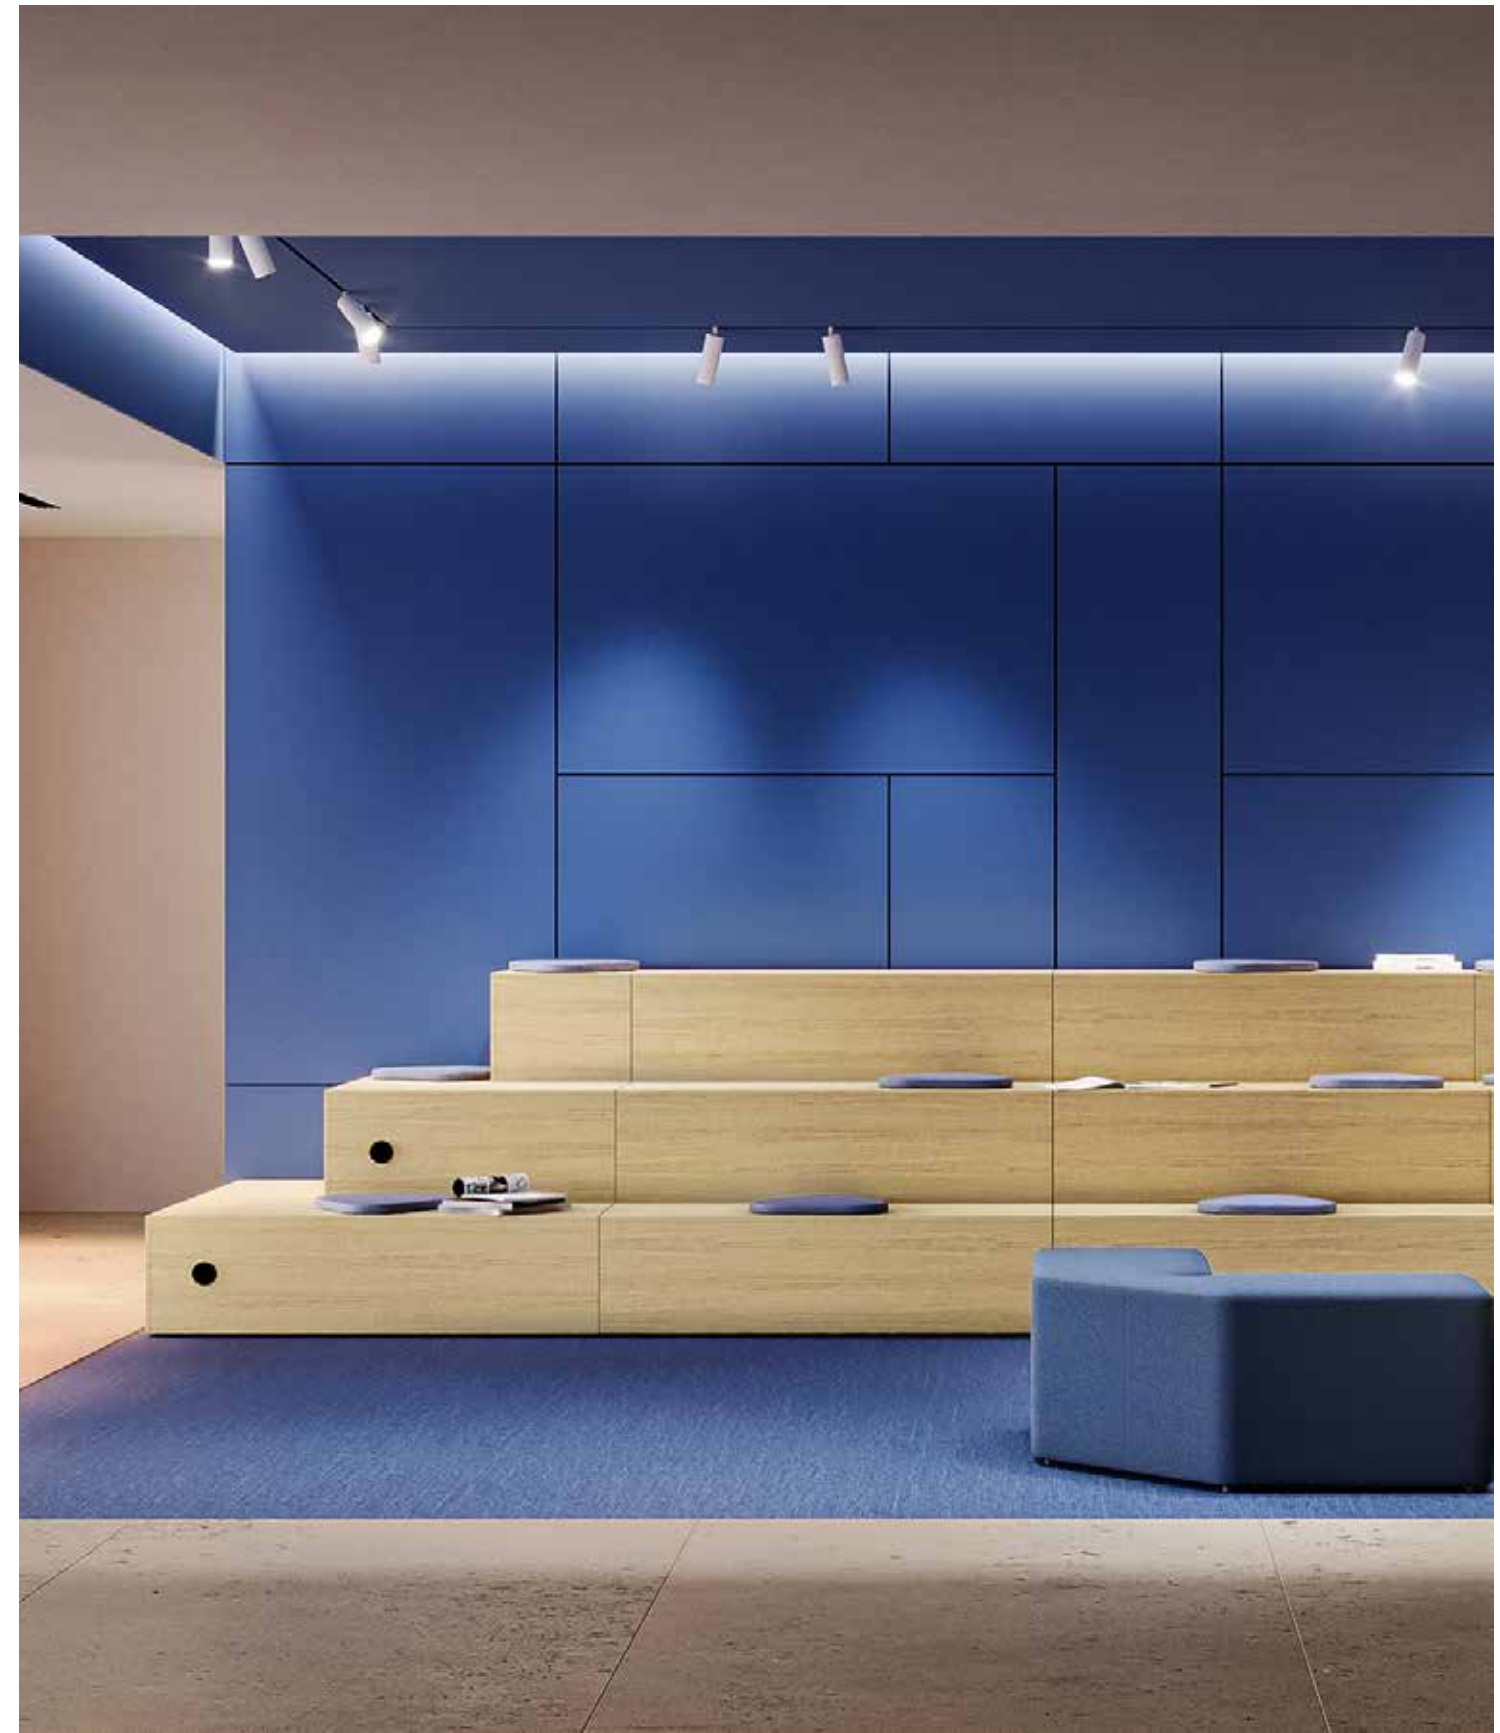

Paxt is a versatile collection of bucket chairs designed by Piotr Kuchciński, offering a blend of classic design with refined details, smooth lines, and thoughtful proportions. The chairs feature an option for a backrest piece for extra comfort and customisation, allowing for contrasting fabric choices to create a unique look. Available in both low and high options, as well as a soft version with a more relaxed backrest, Paxt comes with eight base options to suit a variety of needs. This adaptable collection is perfect for residential, office, and public spaces.

Podium

Podium is a modular, three-level seat designed for use in office, public, and informal meeting spaces. Its minimalist design combines simplicity with exceptional stability and durability. Podium was designed with users in mind who value both comfort and functionality. It is made of 18mm thick melamine board, mounted on a sturdy metal frame. Additional features include media ports and cushions.

*A VERSATILE, MODULAR THREE-LEVEL SEATING SOLUTION
THAT BLENDS MINIMALIST DESIGN WITH DURABILITY*

Shieldon

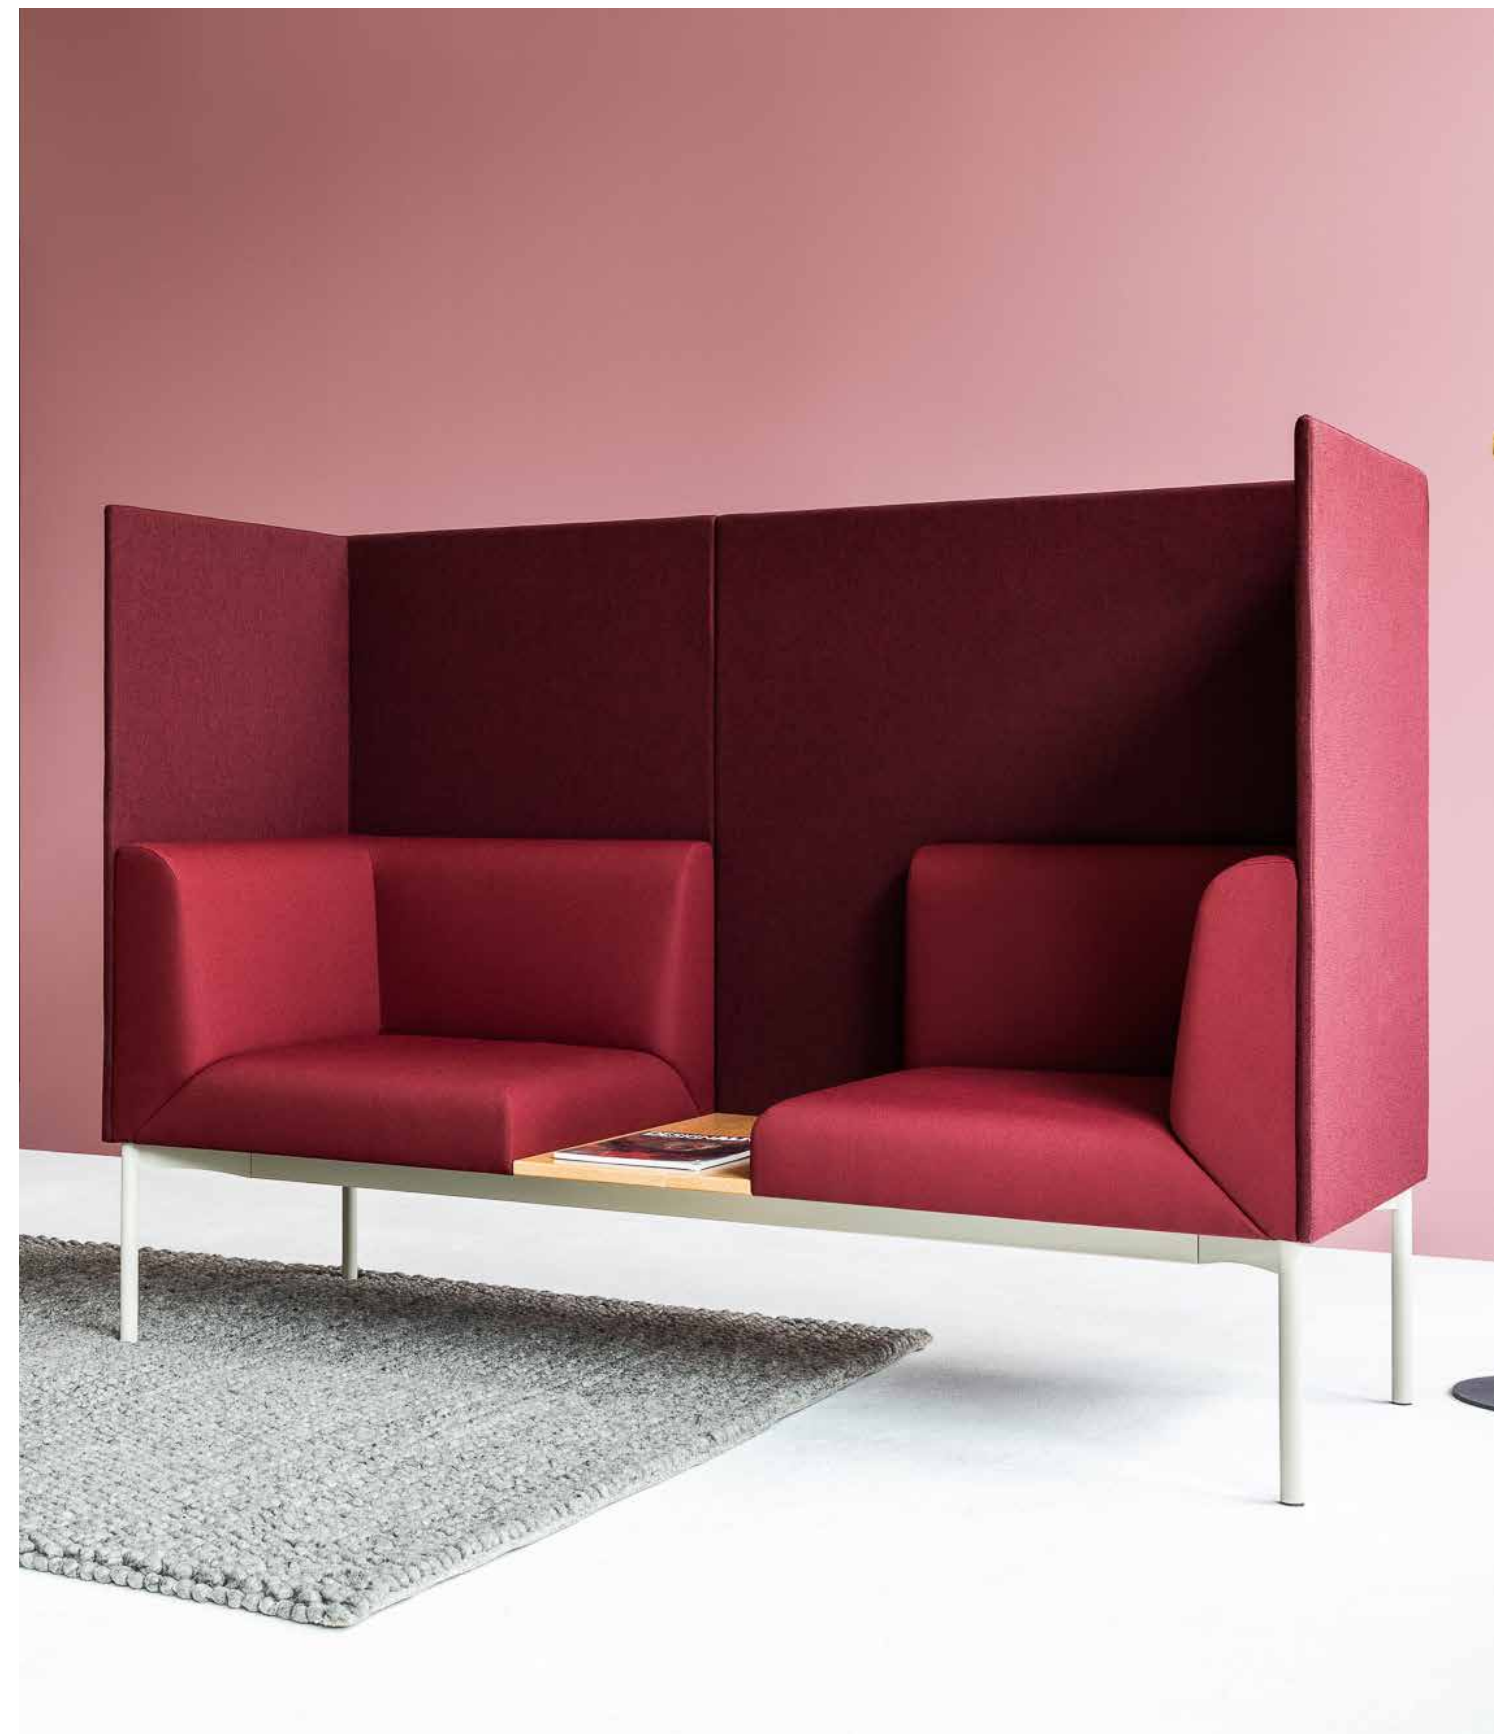

Shieldon is a swivel chair designed to provide privacy and comfort in open plan spaces. With a high backrest extending to the sides, it offers acoustic comfort while maintaining openness on one side for easy interaction. Perfect for commercial environments like offices, hotels, and lobbies, as well as private homes, it allows for partial separation in shared spaces. The chair features tilt and swivel functions for customised comfort, and is available with the high backrest on either the left or right side.

Sona

Sona is a modular furniture system designed to be easily customized for any space, offering flexible seating arrangements and functionality. It features 8 basic frames and optional pouffes or small tables to complete layouts. The collection includes adjustable panels that can separate work and rest areas, or act as dividers, maintaining an open feel. Reversible modules and media ports for charging devices make it ideal for open-office environments. Sona enhances acoustics with its upholstered panels and offers a wide variety of textures and colors to suit any design. It is perfect for offices, public spaces, and waiting areas, allowing for versatile seating layouts.

SONA IS A FLEXIBLE, MODULAR SYSTEM OFFERING CUSTOMISABLE SEATING AND ACOUSTIC BENEFITS, IDEAL FOR DYNAMIC LAYOUTS IN OFFICES AND PUBLIC SPACES.

Zoe Moodlii

Whether as a conference, hotel or restaurant chair as well as a chair for guests – Zoe meets all the requirements set for it. The latest technologies used in production, as well as fresh contemporary design, puts Zoe at the forefront of this type of products. The attractive design of the injected foam bucket is available in a wide variety of bases, both based on wood, metal and aluminum. Thanks to its multifaceted nature, it can be used in interiors of various types.

Sosa

Sosa is a modular sofa system known for its elegant proportions and lightweight, sleek design. Despite its large size and strong contours, the collection gives the impression of floating above the ground thanks to its advanced frame structure that combines slenderness, stability, and durability. The sofas are raised on long, slender legs and feature soft, comfortable seating with a high-end finish. The collection offers various configurations, including 1-, 2-, 2.5-, and 3-seater modules, with options for armrests, fabric choices, and leg finishes. Complementing the sofas are versatile coffee tables with wooden tops in four sizes, allowing for endless arrangement possibilities.

SOSA IS A VERSATILE, MODULAR SOFA SYSTEM THAT COMBINES SLEEK DESIGN, COMFORT, AND FUNCTIONALITY

MOBILE WALL

visi

Visi board is a high-quality, mobile dry erase board designed for effortless writing and erasing. Its integrated handle makes it easy to move to any space, while the durable, coated frame comes in a variety of colors to match any interior.

HushWall

HushWall is a versatile, mobile office partition that adapts to different layouts and needs, featuring modules for easy transport and configurations like upholstered panels, whiteboards, or multimedia walls with TV mounts.
